## The Hidden Key

Amina and her brother Tariq visited their grandmother's old house. While cleaning the attic, Amina found a small rusty key.

They searched everywhere until they discovered a wooden chest hidden under some blankets. The key fit perfectly! Inside were old letters and photos from Grandma's past.

Grandma smiled with tears in her eyes. "These are memories of your grandfather. I thought they were lost forever," she said.

That night, they sat by the fire as Grandma shared her stories. The key had opened more than a box—it had opened a door to family memories.

1. Who found the key in the story?
2. Where did Amina and Tariq find the key?
3. What did the key open?
4. What was inside the wooden chest?

5. How did Grandma feel when she saw what was inside?
6. What lesson does the story teach us?
